Mike, if the feds classify in the federal version of Schedule V, fine - then the CSB can follow in kind. Representative Vukmir simply wants what the CSB does to be consistent with federal law, so long as the feds go first the CSB shall follow.

What if the feds classify pseudoephedrine in the federal version of Schedule V? Should the CSB then be able to add it to our Schedule V? (Some people view Schedule V drugs as "over-the-counter," even though they can be obtained only from a pharmacist.)

Mike, Representative Vukmir's concern is that the PFB & CSB (generally speaking) should have the authority to reclassify over-the-counter medication inconsistent with federal law. So, what if we inserted language in s. 450.07 4 (b) 1, stating something to the effect that, reclassification of over-the-counter medication shall be consistent with federal law.

Let me know what you think. Thank you.

Deleting lines 15-16 would not address the problem. You would still need to limit the PEB's authority. In addition, deleting those lines would require you to modify the definition of "pseudoephedrine product," since, under the sub, the CSB has the authority to add and remove products from the definition of "pseudoephedrine product." See page 9, lines 1-6.

Hi Mike. Sorry for the delay in getting back to you, I appreciate the attention. What if we deleted the language added in ASA 2, page 9, lines 15 & 16, "this paragraph does not apply . . . (20c)." Or would we have to specifically insert language stating that the Pharma Brd could not impose regulations on the distribution of pseudoephedrine products?

Note that s. 450.07 (4) (b) would allow the Pharmacy Examining Board to impose additional regulations even if your amendment were adopted. If you want to impose any restrictions on the Board's authority to regulate the distribution of pseudoephedrine products, please let me know.

Hi Mike. That would be fine to include language allowing the CSB to add something so long as the feds do, no problem.
Thankx.

After thinking about this some more, you don't need to address the issue below if you don't want to. Right now, the CSB does not appear to have the authority to add anything to Schedule V unless it is on the federal version of Schedules I, II, III, or IV. If you want to keep it that way, you can. But if you want to change s. 961.11 (6) (a) to allow the CSB to add something to Schedule V if the feds add it to the federal Schedule V (or just add pseudoephedrine if the feds do), I can include language amending that provision.
